FOREWORD

In presenting our first Mail Bid Sale of the current season we would like to mention just a few of the more outstanding series gathered together in this catalogue. The collector of **Ancient Coins** will find some unusual gold pieces, if his interests run to this fascinating metal. But more important perhaps is the large selection of **Greek Silver** of all catagories that should give ample scope to the man who wishes to try to add something different to his holdings in this field.

We feel that we have been fortunate in gathering consignments to appeal to those attracted by the Numismatics of the Western Hemisphere. You will find an exceptionally nice small collection of **U. S. Coins** that includes some individual rarities of note. There is also a small selection of **Canadian** material. We think, however, that **Consignment Carlos** with its unusual rare **Latin American Dollars** and **Proclamation Medals**, particularly in the **Mexican** series, is outstanding.

In the European field, the **Amsterdam Consignment** of **Multiple Talers** and **Siege** coins presents a comprehensive list of these fine large pieces that are becoming more and more difficult to find today. The condition of the coins in most cases is superb. The European Gold section is divided up among **Hammered, 18th and Early 19th Century** and more **modern Gold Coins of the World**, including **Latin America**. There is also a small consignment of **Swedish** coins and medals and an unusual group of **Dollars** and other denominations from **Africa** and the **Far East**. Finally there are a few Lots of various mixed coins that should provide a great deal of amusement for the buyer. **These Lots are sold "As Is" and are not subject to return after the Sale.**

As usual, we urge Bidders to send us their Bids as soon as possible and not to indulge in the very human habit of putting the job off until the last minute. There is also another touchy subject that we have commented upon before in the **Numismatic Review**. We refer to the nature of the Bids submitted. It is not really useful to bid \$5.00 on a Five Dollar size Gold Coin that contains about \$8.50 worth of Gold at the official U. S. Government price. We have done our best with the estimates. Nevertheless, we have no illusions and realize that there will be many whose opinion differs from ours. This difference, and the ability to emphasize it in your Bids, is what makes an Auction Sale. We find that the man who submits 50 to 100 Bids, the majority of which are only a tenth of the estimates or less, wastes both his time and ours. Any further comment on this aspect of bidding would appear to only overemphasize what should be obvious to all sensible collectors.

In closing, we would like to say that the next issue of the **Numismatic Review** will appear at the end of April. This issue will feature **Russian Coins** and coins associated with Russia. There will, of course, be other series in addition since we try to include material that will interest as many of our friends as possible. At the time you receive the Review, our Mr. George Weyr will be on his way to Europe to renew old acquaintances and perhaps find a few pieces that our readers will like.

| 798 | 20 Crowns, 1914. Lower portion of the shield carries the Bosnian Arms. Until 1956 this coin was only known with the date 1916 and regarded as VERY RARE . In the <i>Mitteilungen</i> of the Austrian Numismatic Society, Number 8, 1956, p. 60, Wenzel published his discovery of the first specimen dated 1914 . He found no example in the Austrian Numismatic Cabinet. In Wenzel's opinion, the coin dated 1914 was probably unique. We are happy to offer this additional specimen in Uncirculated Condition . We cannot put an estimate on this rarity since, to the best of our knowledge, it has not appeared on the market before. PLATE ENLARGED. | (—) |
